

CatCentric

Better lives through better care!

Feline Prey Model / Whole Prey Raw Bone Guide

Good Bones

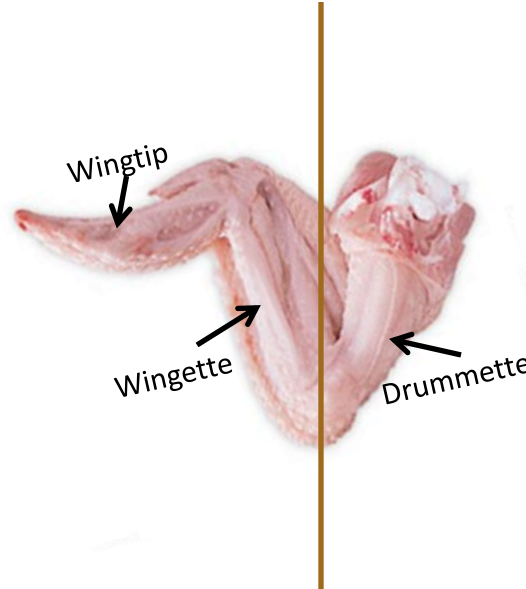

Chicken wingtips, wingettes and ribs.

Cornish Game Hens

Small rabbits

Best Bones

Whole quail, mice, rats, etc.

Bad Bones

No cooked bones!

No chicken or turkey thighs.

No turkey or large chicken necks.

No ruminant (beef, etc.) or weight-bearing bones.

Bone Substitutes

Ground egg shells, ½tsp/lb meat

TIP: Think small! Can you snap it with your bare hands?

Weekly Prey Model Bone Amount

One chicken wingtip and wingette, three times a week (cut on the joints and between the bones).
Adjust as necessary! If poop = hard & white, feed less bone; If poop = soft & runny, feed more bone).
